

SPORTS MED GO & MOUNTAIN VIEW VOLLEYBALL **FREE OUTSTANDING MEDICAL CARE** **HOW IT WORKS**

Golden State Orthopedics & Spine has partnered with Mountain View Volleyball Club to provide outstanding sports medicine care for all of their athletes.

Our free SportsMed Go Program is the first point of contact for athletes. When an athlete is injured, the athlete, parent, or coach, can schedule a visit at our Los Gatos office and have that injury evaluated by a sports medicine professional. We will try to see the athlete by the end of the next working day.

During the visit, a sports medicine professional will evaluate the athlete, come up with a working plan, and coordinate the care with the athlete and parent. We can share the plan with the coach as well. More significant injuries will be referred to an appropriate medical provider.

 **HOTLINE**
408-412-8118

The hotline number for scheduling these visits is shown above. Messages left during business hours will be returned as soon as possible. Visits to our office may be scheduled during regular business hours from 9 AM until 5 PM, Monday through Friday, except holidays. We will do our best to accommodate your schedule.

We look forward to taking care of your athletes!
